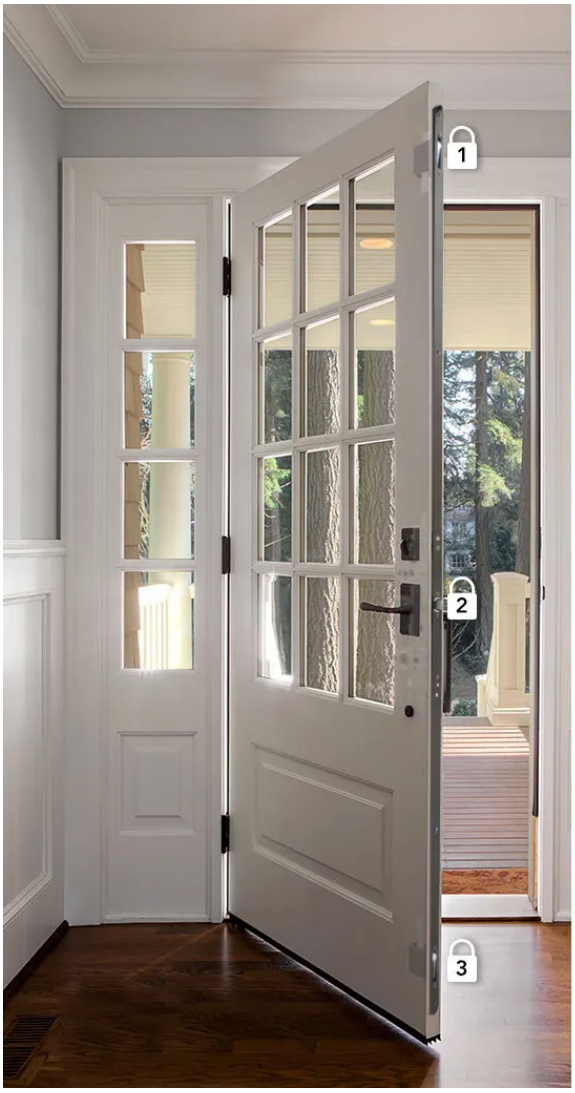
NEW -MULTI POINT LOCKING SYSTEM

Doorsmith is now offering an innovative NEW locking system for exterior doors. This one-of-a-kind PanoLock+ multi-point lock works with most off-the-shelf lock hardware, supports a forgiving installation, and offers lasting performance, all at an affordable price point.

- Available in Bronze or Satin Nickel for 6'8"/ 7'0" / 8'0" door systems
- Order in both Steel and Fiberglass systems
- The FIRST and ONLY multi-point lock that works with a variety of off-the-shelf hardware -Including Electronic Deadbolts

SECURITY. PERFORMANCE. STANDARD.

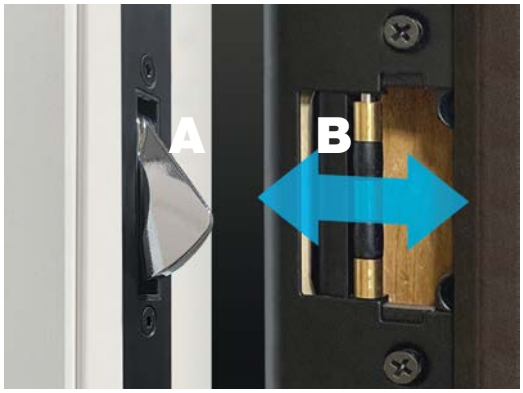


**HANDLE SETS ARE SOLD SEPARATELY*

A simple turn of the deadbolt operates both tapered bolts smoothly and the handle-set operates the handleset latch. Three points of secure contact. PanoLock+ is easy to live with, even after years of use.

PanoLock+ is flexible. Handing and swing can be set in the shop, reducing SKUs.

. No dedicated hardware required.
. No need for dedicated panels.
. No difficult installation.
. No expensive templates.



A. Tapered bolt. Unlike other locks that tend to catch, PanoLock+'s tapered bolts engage easily, even when the door is out of alignment.

B. Adjustable roller strike. Rollers lower operating force allowing the tapered bolt to gently snug the door panel against the weatherstrip.

ADJUSTABLE STRIKE PLATE FINISHES

Victorian Bronze | Satin Nickel | Black | Stainless Steel

FACEPLATE FINISHES

Bronze Anodized | Satin Nickel
