DURABLY**  
*For years of excellence*

We start with the highest quality materials.

Then, our skilled craftsmen put their experience to work in building you interior doors that are immaculate, from surface to core.

 **SUPERIOR  
CRAFTSMANSHIP**  
*Strength you can count on*

JELD-WEN interior doors are built to withstand the test of time.

Each component is masterfully crafted so you get quality and longevity you can count on.

 **INDUSTRY-LEADING  
WARRANTY**  
*We stand behind our products*

An industry-leading warranty protects you against defects in material and workmanship.

So you can enjoy years of reliability and home comfort.

## It's in the Core

20MIN Fire Ratings apply to Jeld-Wen Solid-Core Models.

**Solid Core** doors feature sound dampening, fire-ratings, improved strength & security.

Moulded Interior Doors, or Raised Panel & Flat Panel (Shaker) options are available.

Door slabs must be used with fire-rated door systems for true fire protection. A door system consists of a door slab, frame, hardware and components.

45-90MIN Fire Ratings apply to doors with a Solid Mineral Core.

### Solid Particalboard Core

1 3/4" Door  
**20MIN** fire rating available.  
up to 3'2"W x 8'0"H.

### Solid Mineral Core

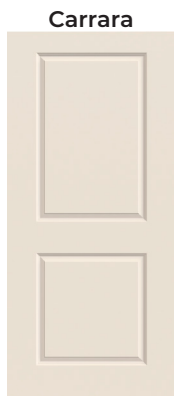

1 3/4" Door  
**45MIN** fire ratings available in moulded and flush styles.

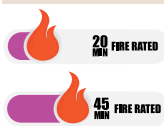

**60-90MIN** fir ratings available in flush/hardboard only.  
up to 3'2"W x 8'0"H.

## Georgian Wire Glass (GWG)

**FIRE RATED  
DOORS**

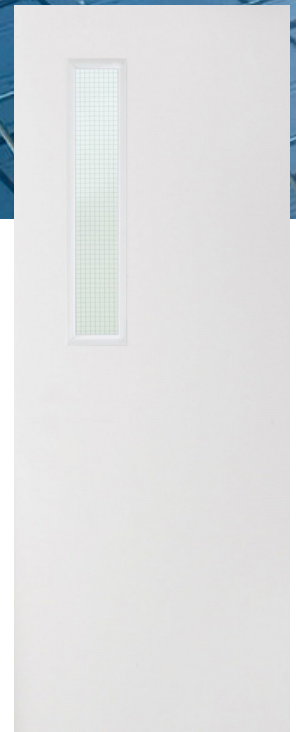

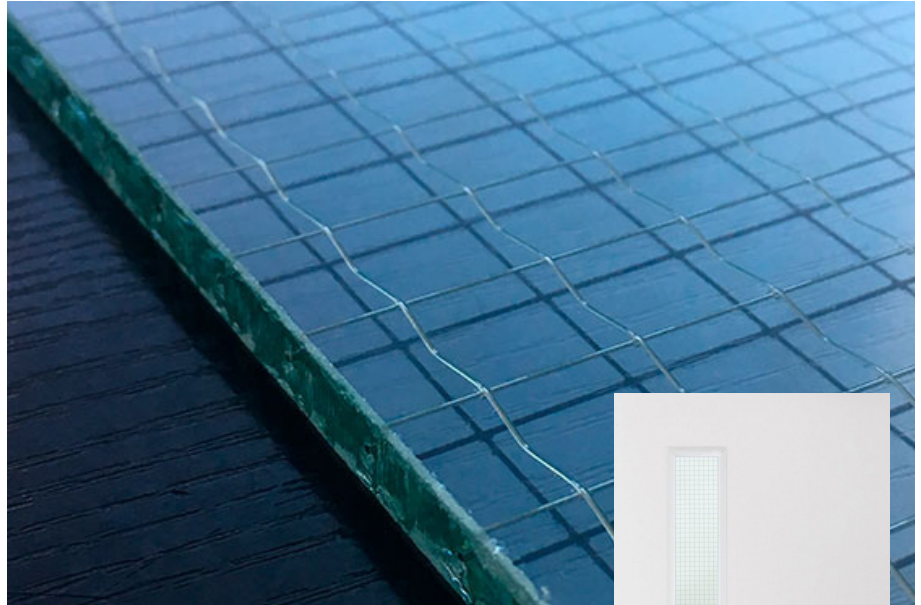

GWG has a grid or mesh pattern that is made of thin wire embedded within the glass. The wire prevents the glass from falling out of the frame even if it cracks under thermal stress and is far more fire-resistant than laminating material. GWG is meant to be installed into flush hardboard fire rated interior doors.

### GWG Sizing

GWG is available with 20MIN fire ratings with oak or birch frames for flush 1-3/4" thick doors up to 3'2"W x 8'0"H.

Each opening should have at least 6" from top & side of door.

# 1 3/4" 20MIN Fire Rated Solid Door Styles

## COLONIAL PROFILE RAISED PANEL DOORS

**Colonial Profile** *Doors shown in Oak.*

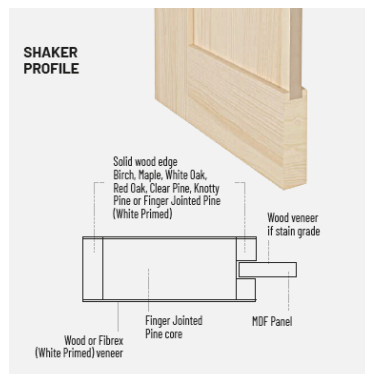

Defined by its refined structures, the classic style of a Colonial profile is steeped in tradition. With its timelessness, the Colonial profile is sure to impress with its sophistication and true elegance.

## SHAKER PANEL DOORS

**Shaker Profile** *Doors shown in Clear Pine.*

The contemporary Shaker profile door favours square shapes and flat lines. Its very simple and unadorned design, will suit a modern farm or contemporary home perfectly by its simplicity. Painted in white and accompanied by a modest hardware, Shaker Doors will bring a touch of perfection to your decor.
